ACKNOWLEDGEMENT

First and foremost, we are deeply thankful to Almighty Allah for granting us the strength, patience, and ability to complete this project successfully.

We would like to express our heartfelt gratitude to our respected teacher, Miss Kiran Shakeel, for her invaluable guidance, continuous support, and encouragement throughout the development of our project "**PolicyPro360 – Online Insurance Management System**" Her supervision not only kept us on the right track but also enhanced our learning experience through exposure to new ideas and technologies.

We are also sincerely thankful to our parents and friends for their constant motivation, moral support, and assistance during every phase of this project.

Finally, we would like to extend our appreciation to the E-Project Team at Aptech Head Office for their valuable feedback, resources, and overall support, which played a key role in the successful completion of this project.

We hope that PolicyPro360 serves its purpose effectively and proves to be helpful for its intended users. We warmly welcome any suggestions and feedback for future improvements.

INTRODUCTION

PolicyPro360 is a web-based insurance management system that allows insurance companies to create and manage policies, while users can view, purchase, and manage their insurance online. The platform streamlines the entire insurance process and provides secure access to users, companies, and administrators.

This documentation outlines the system's purpose, features, and implementation approach.

PROBLEM STATEMENT

The problem statement is attached separately in a file "Insurance-services.doc"

Standards plan:

Every code block must have comments.

The logic of the program needs to be explained. Proper documentation should be maintained.

Complete Project Report along with synopsis, code and documentation should be prepared.

Documentation:

No project is complete without documentation. In fact, it is one of the most important activities during the development of a project. The documentation of an ideal project will be in the form of a project report comprising of the following documents:

- Certificate of Completion.

- Table of Contents.
- Problem Definition.
- Customer Requirement Specification.
- Project Plan.
- E-R Diagrams.
- Algorithms.
- GUI Standards Document.
- Interface Design Document.
- Task Sheet.
- Project Review and Monitoring Report.
- Unit Testing Check List.
- Final Check List.

CUSTOMER REQUIREMENTS

SPECIFICATIONS – PolicyPro360

Insurance services

Insurance is a contract for the payment of a sum of money to the person assured upon the happening of the event insured against.

Usually, the contract provides for:

- Payment of a specific amount on the date of maturity
- Payment at specified intervals
- Payment upon the unfortunate death of the insured, if it occurs earlier

The insured agrees to pay periodic premiums to the corporation. Insurance is widely recognized as an institution that eliminates risk by replacing uncertainty with certainty and provides timely aid to the family in the event of the breadwinner's death.

◆ Project Requirements

This software system provides support for four main types of insurance services:

- Life Insurance
- Medical Insurance
- Motor Insurance
- Home Insurance

The project operates in **Internet mode**, allowing authorized company officials to **view and update** data online.

◆ Key Features of Online Insurance Service

1. Policy Viewing

Users can view details of various policies and schemes offered by insurance companies.

2. User Registration

New users can register on the platform to access policy information online.

3. Policyholder Dashboard

Existing policyholders can:

- View their current policy details
- Calculating premium amounts based on selected term plans

4. Information Updates

The website provides updates about:

- New strategies
- New subsidiary schemes offered by the companies

5. Loan and Online Payment Facility

- Policyholders can apply for loans against their policies
- Premiums can be paid online securely

Insurance includes

Insurance services

- **Life Insurance:** Life insurance is a plan which provides protection to the insured and his family with financial coverage in case of any mishaps. To avail yourself of the benefits of life insurance policy, the policy holder must pay a monthly premium to the insurer for a certain period of time.
- **Medical Insurance:** Under this type of health care cover, medical expenses are covered. When an insured person needs medical treatment due to illness or accident, the insurance agent provides coverage for his expenses such as doctor fees, hospital fees, medicine cost and other related bills.

- **Motor insurance:** Under this type of plan which provides protection against the automobile the user owns.

- **Home Insurance:** The most popular among the 6 types of insurance is the home insurance that provides compensation for any mishaps that occur in your home. Coverage is provided according to the policy and premium paid by the homeowner. There are various types of home insurance plans that you can choose from to suit your needs.

SCOPE OF THE PROJECT

PolicyPro360 is an online insurance management system designed to streamline the interaction between insurance companies and customers. The platform allows **insurance companies** to register and **create various policy types**, such as Life, Medical, Motor, and Home Insurance. **Users** can register, view policy details, purchase policies, pay premiums, and submit claims or loan requests. **Admins** have full control to manage users, companies, policies, and monitor system activities. The system ensures a secure, user-friendly, and efficient experience, aligning with our commitment: "**Your Policy, Our Priority.**"

PROPOSED SOLUTIONS

To address the challenges faced in traditional insurance systems – such as manual processes, lack of transparency, and limited customer access – **PolicyPro360 offers a centralized and digital solution.**

This web-based platform will:

- Allow **insurance companies** to register and easily create/manage policies online
- Enable **users** to register, view policies, buy them, pay premiums, and submit claims or loan requests from anywhere
- Provide an **admin panel** to oversee all operations, user activity, and generate reports

By automating core insurance functions and providing real-time access, PolicyPro360 ensures a secure, fast, and hassle-free experience for all stakeholders.

The system simplifies insurance processes, reduces paperwork, and builds trust through transparency and digital convenience.

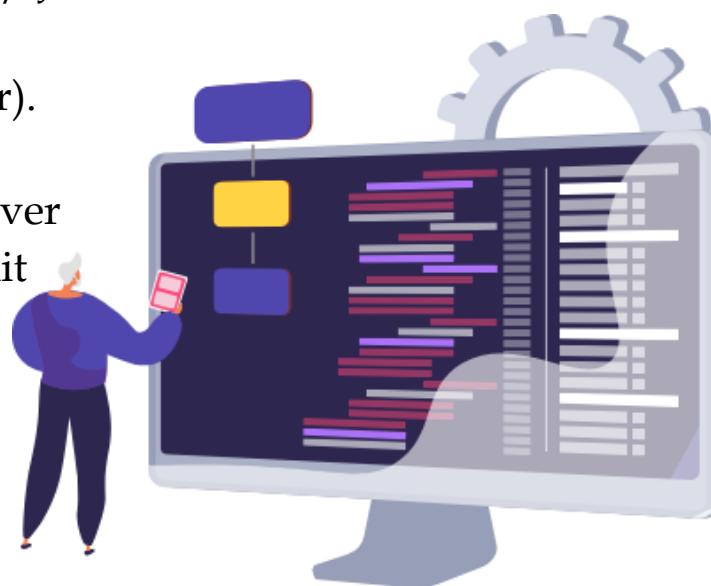

HARDWARE/ SOFTWARE REQUIREMENTS

Hardware

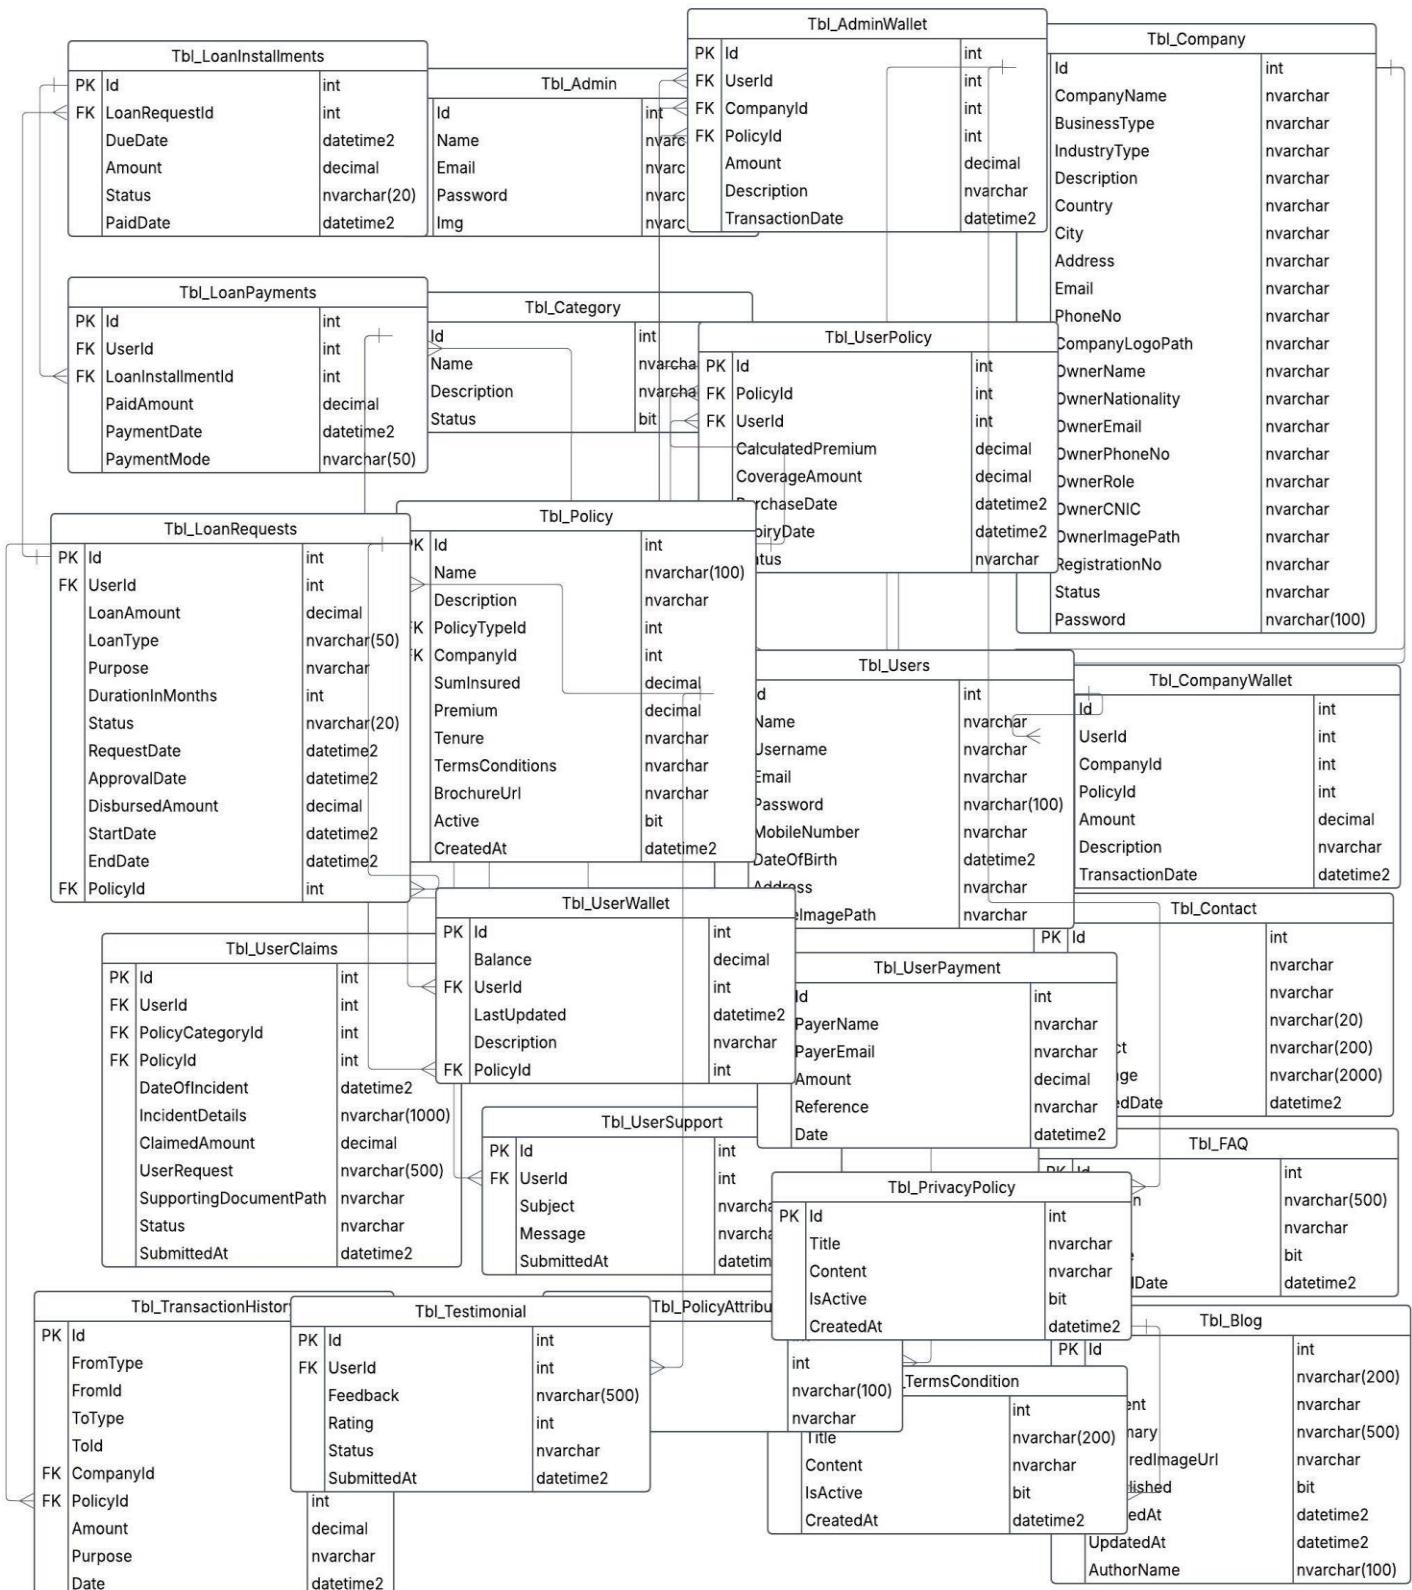

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better
- 128 Megabytes of RAM or better

Software

- Visual Studio .Net / ASP
- IIS server
- .Net Framework
- Java Virtual Machine/ J2EE server
- Notepad/Java editor
- j2sdk1.4.1_02 (or later).
- EJB Dev Kit
- Java enabled web server
- JSP / Servlets Dev. Kit

DATABASE DESIGN

INTERFACE DESIGN DOCUMENT

1. Introduction

This document outlines the design and interaction structure of the **PolicyPro360** platform, focusing on clear navigation, smooth workflows, and user-centric layout across all roles.

2. User Roles and Interface Responsibilities

Role	Responsibilities / Access
Customer	Register, log in, view/purchase policies, calculate premiums, and submit claim/loan requests
Company	Manage their insurance policies and view/process claim and loan requests from customers
Admin	Full system access. Manages websites , approve companies, views reports, and monitors all modules

3. Workflow Summary

➤ Customer Side

- Access dashboard to:
 - View policies
 - Use premium calculator
 - Submit **claim or loan request**

➤ Company Side

- View dashboard listing:
 - Added policies
 - Incoming **claim requests**
 - Incoming **loan requests**
 - Approve/Reject options available for each

➤ Admin Panel

- Approves companies before they can add policies
- Can view all customer activities, system statistics, and reports
- Responsible for full system supervision and integrity

Source Code Snapshot

Policy Controller

The screenshot shows the Visual Studio IDE interface. On the left, the code editor displays the `PolicyController.cs` file. The code implements the `IActionResult` interface and contains logic for creating a life insurance policy. It uses `HttpContext.Session` to get the company ID, handles brochure file uploads, and saves the policy to the database along with its attributes. The `Attributes` object is checked for null and any values, and if found, it is added to the `Tbl_PolicyAttributes` table. The `SaveChangesAsync()` method is used to save changes to the database.

The Solution Explorer on the right shows the project structure. It includes controllers for Admin, Company, and User, as well as models, view models, and views for various pages like Admin, AdminBlog, AdminCompany, etc. The `CompanyController.cs` file is currently selected in the Solution Explorer.

The screenshot shows the Visual Studio IDE interface. The left pane displays the C# code for the `UserHomeController.cs` file, specifically the `FileClaim()` method. The right pane shows the Solution Explorer, which lists the project structure for `PolicyPro360`, including the `Controllers` folder containing `UserHomeController.cs` and other controllers like `Admin`, `Company`, and `Shared`. The `Views` folder under `UserHome` contains several view files such as `about.cshtml`, `applyloan.cshtml`, etc.

The Importance and Benefits of Home Insurance

Your home is one of the most valuable investments you'll ever make. It represents years of hard work, savings, and dreams. But in the face of natural disasters, theft, fire, or other unexpected events, that investment can be lost in moments. That's where home insurance becomes your financial safety net.

What is Home Insurance?

Home Insurance is a contract between you and an insurance company that provides financial protection in case your home or belongings are damaged or lost due to covered risks.

Key Benefits of Home Insurance:

- **Protection Against Natural Disasters**
Provides coverage against floods, earthquakes, fires, and storms.
- **Coverage in Case of Theft or Burglary**
Compensates for loss if your valuables are stolen or damaged.
- **Personal Belongings Coverage**
Includes coverage for furniture, electronics, appliances, and more.
- **Peace of Mind**
Stay financially protected and stress-free in case of unexpected damage.

Hope for the Best, Prepare for the Worst

Quick Tips for Buying Home Insurance:

Choosing the right home insurance policy can save you from major financial stress during unexpected events. Make sure to compare plans, understand what's covered, and don't hesitate to ask questions before signing. A little awareness now can offer big protection later.

- **Read the full policy carefully.**
- **Know the inclusions and exclusions.**
- **Check the premium and coverage limit.**
- **Understand the claim process clearly.**

	Fast & Easy Process Get covered quickly with a simple and hassle-free sign-up.
	Quick Claim Handle Enjoy fast and reliable claims handling with expert support.
	Save Your Money Affordable premiums that protect your investment and budget.

Why Motor Insurance for Bike & Car?

Motor insurance protects your two-wheeler or four-wheeler from financial losses caused by accidents, theft, or damage. Whether you own a bike or a car, having motor insurance ensures you're legally compliant and financially secure against unexpected repair costs or third-party claims.

What Does Motor Insurance Cover?

- Third-party Liability
- Covers damages or injuries caused to others in an accident.
- Own Damage Cover
- Repairs or replaces your bike or car after accidents or mishaps.
- Theft or Burglary Protection
- Safeguards against vehicle theft or attempted theft.
- Fire & Natural Calamities
- Covers damages from fire, floods, storms, etc.

Benefits of Motor Insurance

- Financial Security
- Covers repair or replacement costs for your bike or car.
- Legal Requirement
- Complies with government regulations for vehicle ownership.
- Third-party Coverage
- Protects against liabilities from accidents involving others.
- Emergency Support
- Many insurers offer roadside assistance for breakdowns or emergencies.

Quick Tips for Motor Insurance (Bike & Car)

Motor insurance protects against accidents and theft. Choosing the right plan and add-ons saves money.

- Compare bike and car insurance plans.
- Pick insurers with good claim records.
- Check policy coverage and exclusions.

Fast & Easy Process

Our digital process ensures you can get insured quickly and easily from the comfort of your home.

Quick Claim Handling

We process claims efficiently so you can get back on the road with minimal disruption.

Save Your Money

Secure Your Family's Future with Life Insurance

Life is unpredictable, but your family's financial security doesn't have to be. Life insurance is a promise—a fundamental tool to ensure that your loved ones are financially protected even when you are not around. It provides them with the support they need to maintain their lifestyle and achieve their dreams.

What is Life Insurance?

Life insurance is a contract where, in exchange for regular premium payments, the insurer pays a lump sum, known as a death benefit, to your beneficiaries upon your passing. This amount helps them manage financial responsibilities in your absence.

Key Benefits of Life Insurance:

- **Financial Security for Loved Ones**
Ensures your family can cover daily expenses and maintain their lifestyle.
- **Debt Repayment**
Your family can use the payout to clear outstanding debts like home or car loans.
- **Child's Future Goals**
Helps fund major milestones like your child's education or wedding.
- **Tax Benefits**
Enjoy tax deductions on premiums paid and tax-free payouts under prevailing laws.

Quick Tips for Buying Life Insurance:

Choosing the right life insurance is a crucial financial decision. It's important to assess your needs, compare different plans, and understand the terms to provide the best possible protection for your loved ones.

- **Assess your financial dependents' needs.**
- **Choose the right coverage amount (Sum Assured).**

Simple Application
Secure your family's future with a simple and hassle-free application process.

Quick Claim Settlement
Ensure your loved ones receive prompt support with our reliable and swift claims process.

Build Your Legacy
Affordable premiums that provide significant financial protection and peace of mind.

Medical Insurance: Your Health, Our Priority

What is Medical Insurance?

Medical insurance is a financial safety net that helps cover the cost of healthcare services. Whether it's a routine check-up, emergency surgery, or long-term treatment, medical insurance ensures you don't have to worry about unexpected medical expenses. It provides you with access to quality healthcare without the stress of high bills.

Why is Medical Insurance Important?

In today's world, medical costs are rising rapidly. A simple visit to the hospital can become a financial burden if you're unprepared. Medical insurance offers:

- Financial Protection
- Covers hospitalization, surgeries, diagnostics, and even ambulance services.
- Cashless Treatment
- Get treated at a network hospital without paying upfront.
- Peace of Mind
- Focus on recovery instead of worrying about bills.
- Preventive Care
- Many plans include free annual checkups and health screenings.

Key Benefits of Medical Insurance

Stay protected when it matters most. Our medical insurance plans offer peace of mind by covering major healthcare expenses — from hospital stays to emergency services. Whether it's routine care or an unexpected illness, we've got you covered.

- Cashless partner hospital treatment
- Pre & post-hospitalization cover
- Emergency & ambulance support
- Free checkups + tax benefits

Health & Medical Claims

Filing a Health Insurance Claim

When a medical need arises, your focus should be on recovery, not paperwork. We've designed our health claim process to be as smooth and supportive as possible. There are two primary types of claims: 'Cashless' (where we pay the hospital directly) and 'Reimbursement' (where you pay first and we refund you).

For a hassle-free experience, especially for planned hospitalizations, please keep the following ready:

- ✓ Your Health Insurance Card and Policy Number.
- ✓ Inform the TPA desk at the network hospital upon admission.

Procedure for Health Claims

The documents required are crucial for a quick settlement. Ensure all bills, reports, and forms are correctly filled and submitted to us promptly.

01 Claim Intimation & Pre-Authorization
02 Submit Medical Bills & Reports
03 Verification & Settlement

FAQs

What is the difference between Cashless and Reimbursement?
In a 'Cashless' claim, we settle the bill directly with the network hospital. In a 'Reimbursement' claim, you pay the bills first, and we refund the approved amount to you later upon document submission.

Which documents are required for a health claim?

What is a TPA (Third Party Administrator)?

What is the role of a surveyor in a home insurance claim?

A surveyor is a licensed professional appointed by the insurance company to assess the extent and cause of the damage. They prepare a detailed report which is crucial for the claim settlement process.

Motor (Car/Bike) Claims

Filing a Motor Insurance Claim

Accidents can be overwhelming, but your insurance is here to support you. Whether it's damage to your own vehicle (Own Damage), damage to another person's vehicle/property (Third-Party), or theft, we've streamlined the process to get you back on the road as quickly as possible.

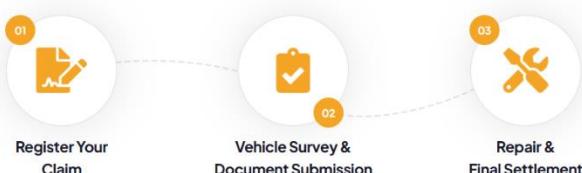

After an incident, your safety is the first priority. Once you are safe, please remember these important first steps:

- ✓ Inform us immediately by calling our helpline or through your dashboard.
- ✓ Take pictures of the damage and the scene if it is safe to do so.

Procedure for Motor Claims

To process your claim efficiently, please ensure you submit all the required documents. The process typically involves claim registration, vehicle inspection by our surveyor, and finally, repair and settlement.

01. Register Your Claim 02. Vehicle Survey & Document Submission 03. Repair & Final Settlement

?

What is the difference between a network and a non-network garage?

At a network garage, you can avail 'Cashless' service, where we settle the bill directly with the garage. At a non-network garage, you must pay for the repairs first and then file for 'Reimbursement'.

?

What is No Claim Bonus (NCB) and will I lose it if I make a claim?

?

Is a police report (FIR) always necessary for a motor claim?

Life Insurance Claims

Navigating a Life Insurance Claim

We understand that this is a difficult time for you and your family. Our commitment is to provide you with the utmost support and make the claim process as compassionate and straightforward as possible. This guide is designed to help you, the nominee, through the necessary steps to receive the policy benefits.

The first and most important step is to inform us about the unfortunate event. Please keep the following information ready:

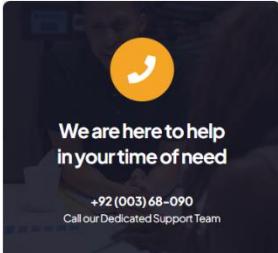

- Policy number and name of the deceased policyholder.
- Date and cause of death.

Documents Required for a Death Claim

Submitting the correct documents is crucial for a swift and hassle-free settlement. The following documents are typically required from the nominee:

- 01 Filled Claim Form
- 02 Death Certificate (Original)
- 03 Nominee's ID & Bank Details

FAQs

How long does the life insurance claim settlement take?

As per regulations, insurers must settle claims within 30 days of receiving all required documents. We strive to process and settle all genuine claims as quickly as possible.

What if the original policy document is lost?

Are any other documents required in case of an accidental death?

Loan Against Policy

Understanding Loan Against Insurance Policy

A Loan Against Policy (LAP) is a feature that allows you to borrow funds against the surrender value of your life insurance policy. It's a convenient way to meet your urgent financial needs without having to surrender your policy and lose its benefits. This facility is typically available on traditional endowment and money-back plans.

Key advantages of opting for a loan against your policy include:

- ✓ Lower interest rates compared to personal loans.
- ✓ No need for additional collateral or credit score checks.

Procedure to Apply for a Loan

Applying for a loan is simple. You just need to ensure your policy is eligible and submit a few required documents. The loan amount is typically a percentage of your policy's surrender value.

Check Eligibility & Request Form
Submit Loan Agreement & KYC
Loan Approval & Disbursal

FAQs

Which policies are eligible for a loan?

Generally, only life insurance policies that have acquired a surrender value are eligible for a loan. This includes endowment plans and money-back policies. Term insurance plans are typically not eligible.

How much loan can I get against my policy?

What happens if I don't repay the loan?

Top 5 Reasons to Get Medical Insurance Before You Need It

7/22/2025 12:34:11 AM Admin

Top 5 Reasons to Get Medical Insurance Before You Need It

Rising Healthcare Costs: Medical treatments are expensive — insurance helps you avoid financial strain.

- 1 Cashless Hospitalization: Get treated at network hospitals without paying upfront.
- 2 Comprehensive Coverage: From surgeries to daycare procedures, you're fully protected.
- 3 Tax Benefits: Save on taxes with eligible premium deductions.
- 4 Peace of Mind: Focus on recovery, not bills, during medical emergencies.

Waiting for a health crisis before buying insurance is risky. Protect yourself and your family with a comprehensive medical policy that covers both planned and emergency treatments.

How to Choose the Right Motor Insurance for Your Vehicle

7/22/2025 12:36:35 AM Admin

How to Choose the Right Motor Insurance for Your Vehicle

Choosing the right motor insurance isn't about picking the cheapest policy — it's about finding the right coverage for your needs.

- Comprehensive vs. Third-Party: Understand the difference and what each covers.
- Add-on Covers: Zero depreciation, engine protection, and roadside assistance can make a big difference.
- Claim Process: Go for insurers with a hassle-free, quick claim settlement process.
- Premium Costs: Compare rates but ensure the coverage fits your risk profile.
- Customer Reviews: Always check feedback and reputation before finalizing.

The right motor insurance protects your car, your finances, and your peace of mind. Don't rush — research before you buy.

User Make Payment

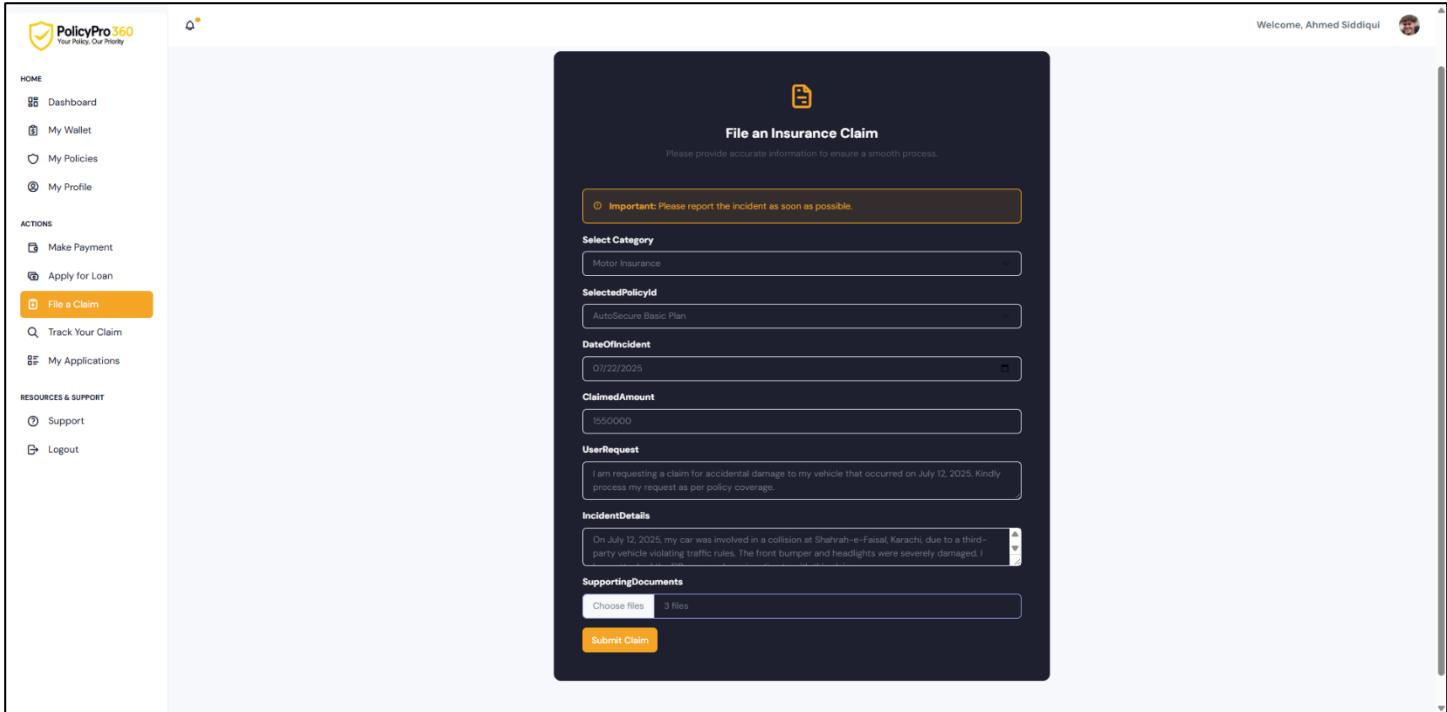

The screenshot shows the PolicyPro360 user interface for making a payment. On the left, there's a sidebar with navigation links: HOME, ACTIONS (Make Payment, Apply for Loan, File a Claim, Track Your Claim, My Applications), and RESOURCES & SUPPORT (Support, Logout). The main area has two panels. The left panel, titled 'Payment Summary', shows details for a selected policy: BikeProtect Essential - AutoProtect Insurance Co. (Policy Name: BikeProtect Essential, Policy Number: 9, Premium Amount: PKR 89,000.00, Payment Type: Annual Premium). The right panel, titled 'Choose Payment Method', has a yellow button 'Submit Manual/Offline Payment'. Below it are sections for 'Credit / Debit Card' (Visa, MasterCard) and 'JazzCash Mobile Account'. It includes fields for Card Number (0000 0000 0000 0000), Expiry Date (MM / YY), CVV (123), and Card Holder Name (John Doe). A yellow button at the bottom right says 'Pay PKR 89,000.00'. At the bottom of the page, a footer note reads '© 2024, Designed and Developed by PolicyPro360'.

This screenshot shows the same user interface as above, but the 'Choose Payment Method' panel is different. It starts with a yellow button 'Hide Manual Payment', followed by a section titled 'Manual/Offline Payment Submission' with a yellow button 'Submit Payment Details'. Below this are sections for 'Credit / Debit Card' (Visa, MasterCard) and 'JazzCash Mobile Account'. It includes fields for Card Number (0000 0000 0000 0000), Expiry Date (MM / YY), CVV (123), and Card Holder Name (John Doe).

Company User Claims Views & Change Status

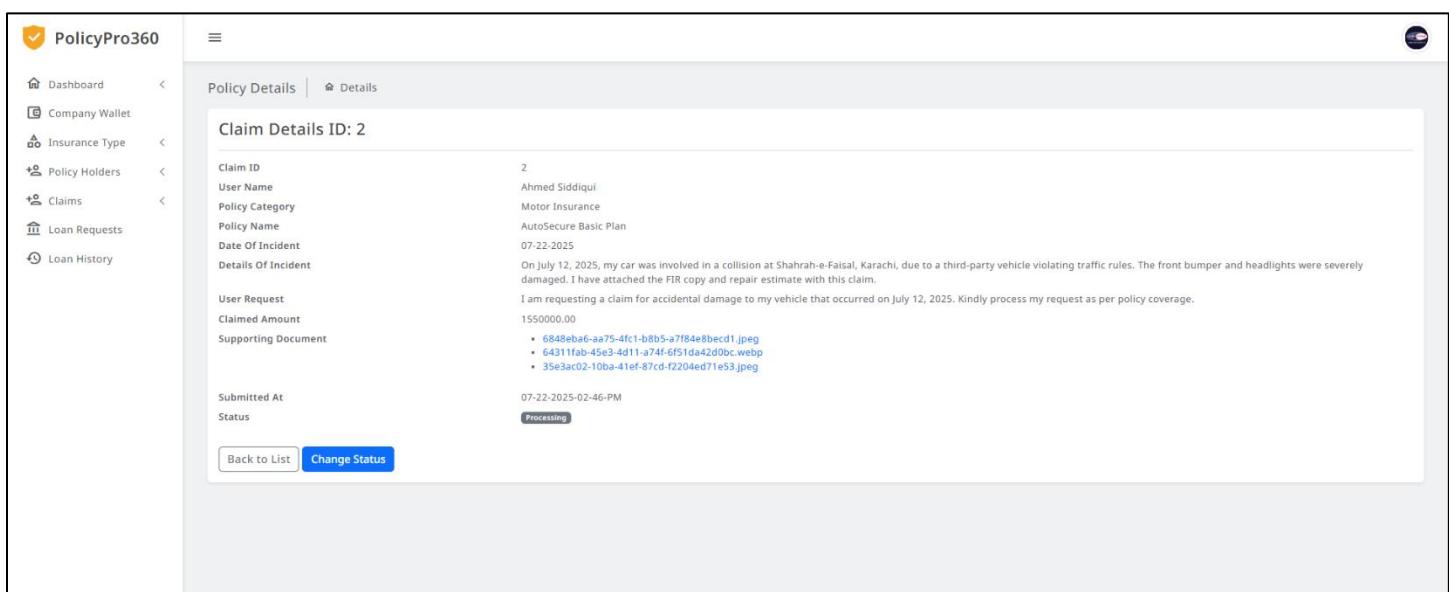

This screenshot shows the 'Claim Details' page for a specific claim ID (ID: 2). The page includes a sidebar with navigation links like Dashboard, Company Wallet, Insurance Type, Policy Holders, Claims, Loan Requests, and Loan History. The main content area displays the following details:

- Claim ID:** 2
- User Name:** Ahmed Siddiqui
- Policy Category:** Motor Insurance
- Policy Name:** AutoSecure Basic Plan
- Date Of Incident:** 07-22-2025
- Details Of Incident:** On July 12, 2025, my car was involved in a collision at Shahrah-e-Faisal, Karachi, due to a third-party vehicle violating traffic rules. The front bumper and headlights were severely damaged. I have attached the FIR copy and repair estimate with this claim.
- User Request:** I am requesting a claim for accidental damage to my vehicle that occurred on July 12, 2025. Kindly process my request as per policy coverage.
- Claimed Amount:** 1550000.00
- Supporting Document:** A list of three file attachments: 6848eba6-aa75-4fc1-b8b5-a7f84e8becd1.jpeg, 64311fab-45e3-4d11-a74f-6f51da42d0bc.webp, and 35e3ac02-10ba-41ef-87cd-f2204ed71e53.jpeg.
- Submitted At:** 07-22-2025-02:46:PM
- Status:** Pending

At the bottom, there are 'Back to List' and 'Change Status' buttons.

This screenshot shows the same 'Claim Details' page as above, but with a modal window titled 'Update Claim Status' overlaid. The modal contains a dropdown menu with the option 'Pending' selected. Below the dropdown is a blue 'Update Status' button. The background of the page is dimmed to indicate the modal is active.

This screenshot shows the 'Claim Details' page after the status has been updated. The status field now shows 'Processing'. The rest of the claim details remain the same as in the previous screenshots.

Question
What is the difference between a Premium and a Deductible?

Answer
A 'Premium' is the fixed amount you pay regularly (monthly or yearly) to keep your policy active. A 'Deductible' is the initial amount you must pay out-of-pocket for a claim before the insurance company starts paying.
